

Multiple Purpose Tool for the School Shop

Grinding Wheel

Drill Press

Large Vise

The Stewart Handy Worker

An exceedingly useful combination—six high quality tools in one compact, sturdy, convenient device.

General shop practice for your students—practicable if they go into mechanical trades or if they simply use the knowledge to be “handy with tools” about the home.

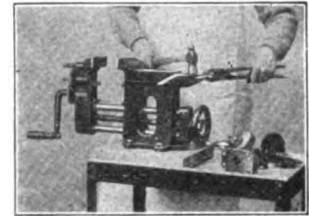

Used by hundreds of autoists, plumbers, electricians, farmers, carpenters, etc.

Strongly built of best materials. There are many places you can use it in the school shop.

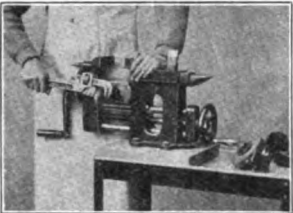

Packed securely in strong case. Weighs 90 lbs. Price, with all attachments as illustrated, \$20.00. Worth more.

Anvil

Pipe Vise

Cutting Hardie

The Stewart Handy Worker—the 6-in-1 Tool

Grinding Wheel, Drill Press, Large Vise, Pipe Vise, Anvil and Cutting Hardie, All in One Compact, Convenient Device

Features of the Handy Worker

As a vise, the jaws open to 4½ inches. Operated by hand wheel and screw—sliding jaw supported on two heavy cold rolled steel rods.

Sure grip pipe vise fits between vise jaws, holding pipe, round bars, etc., up to 1½" diameter.

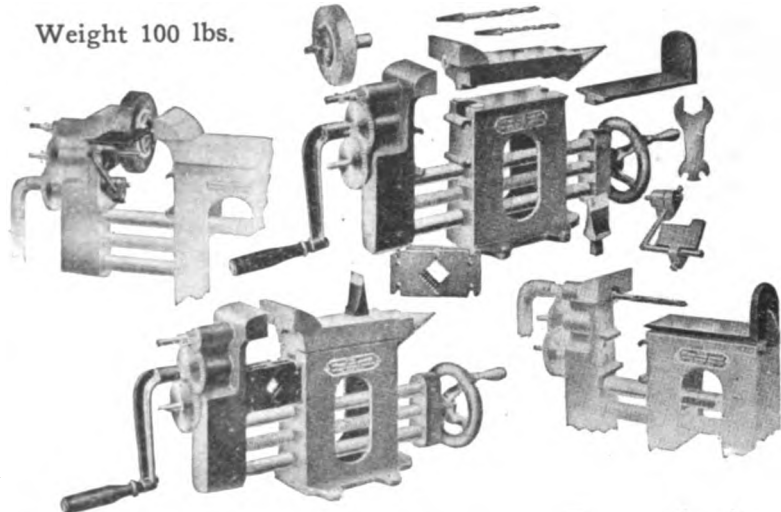

Grinding wheel, 5" diameter, mounted on adjustable arbor—rest for holding work to wheel. Sliding jaw of vise fitted with 3-gear reduction spindle, providing three speeds,—direct, 4 to 1, 16 to 1.

Upper spindle on vise extends through jaw—has socket for holding square shank drills (two included with outfit). Anvil removed and L-shaped fitting put on to form rest for drill press.

Anvil supplies a substantial need, giving a firm base for hammering.

Cutting hardie fits in anvil—also used as cold chisel. Cuts wire, rods, etc.

Weight 100 lbs.

The Handy Worker is used every day by Farmers, Autoists, Plumbers, Electricians, Carpenters, Home Mechanics, Janitors, etc.

A very practicable, useful combination tool for the school shop. Price, with all attachments illustrated, \$30.00.

FOLDER ON REQUEST.
